

SAFARI TRENDS BOTSWANA

With us, it's always personal

Who we are!

What does Safari Trends Botswana Offer

Safari Trends Botswana has been established as a specialised Destination Management Company (DMC) for Botswana and Zimbabwe.

Our goal is the recruitment of Global Sales Agents from around the world which we will achieve by attending industry travel shows/expos online and in person (BTTE, Botswana, USA & Europe). We hope to create a personal relationship with our client/agents, through face-to-face meetings or online interactions and discussions. The contact with the agents will be provided via e-mail, skype and telephone services in an efficient and professional manner.

The relationship with our agents further benefits from our on the ground Team situated in Maun Botswana, the gateway to the Okavango Delta. Our team are there to meet and greet all our clients and further build a relationship of trust and help wherever we can to make the safari experience all the more enjoyable and memorable.

Chawada Kagiso

"With US, it's Personal"

Chawada converted her love and enthusiasm for travel into her career. She has a Degree in Accounting and later obtained a Certificate in Game Lodge Management. Her over ten years of work experience in the tourism industry includes managing lodges and camps in Botswana and being a travel consultant. She adds a fresh perspective to her role in travel consulting and is dedicated to providing her clients with an outstanding travel experience.
